FALL 2017

Project News From Restoration & Waterproofing Contractors, Inc.

Kansas City Office

Missouri Theater

Restoration and Waterproofing Contractors, Inc., is working on restoring the exterior of the historic Missouri Theater on Edmond Street in St. Joe, Missouri.

The work will include tuckpointing on the vertical towers, flashing repairs, patching on wall surfaces, painting and replacing mosaic tiles from the façade.

The Missouri Theater was built as a cinema in the atmospheric style, with Art Deco and Moorish accents. The Missouri Theater Building was built as a companion, and both were completed in July 1927.

In 1978 the city of St. Joseph bought the theater for use as a performing arts center. The theater and office building were placed on the National Register of Historic Places in 1979.

The theater is located in the St. Joseph's Commerce and Banking Historic District.

Wichita Office

County Club Park

Restoration and Waterproofing Contractors, Inc., recently worked on the Country Club Park office building in east Wichita at Webb Road and 13th Street. Restoration and Waterproofing performed brick replacement as well as recaulking and washing and sealing this building for waterproofing.

Client Testimonial

"I wanted to thank you for the job on our building. We came in after the big rain and the whole back

wall was dry! It has not been like that after a rain in years."
